HEALTH & SAFETY POLICY

Great Western Exploration Limited (GTE) is an Australian mining and exploration company with a principal focus on gold and base metals in Western Australia.

GTE believes that excellence in health and safety performance has a positive impact on its capacity to run a successful business.

GTE is committed to being a leader in health and safety through the use of collaborative, responsible and sustainable health and safety management systems to maintain and enhance performance, including:

- **Conduct** our business in a safe and sustainable manner to provide ongoing benefits for all of our employees and shareholders.
- **Selection** of employees and contractors who demonstrate a high-level of awareness and tangible commitment to excellence in health and safety performance.
- **Promotion** of respectful dialogue between employees and contractors to enhance the shared ownership of health and safety performance outcomes.
- **Implementation and maintenance** of a health and safety management system that identifies, assesses and effectively controls the health and safety hazards and risks to employees, contractors and the community.
- **Provision** of training and information to enable employees and contractors to work in a safe and responsible manner.
- **Report and investigate** all safety incidents, and implement corrective actions.
- **Compliance** with all applicable legal and regulatory requirements as a minimum standard.
- **Establish** objectives and targets to continually improve our commitment to the health and safety of our employees, contractors and communities.

GTE's goal is to provide a safe and healthy work environment that is free from workplace injury and illness. This will only be achieved through the participation, co-operation and commitment of everyone in the workplace.
